cannot load my former designs

0 Votes

discussion posted about an hour ago by KarenWest

Hi, I cannot load my former designs to complete this lab. I mentioned this once before, and someone said to use the one in the solutions, even if I got it correct, if I could not load mine. Please let me know how to proceed. I got all the former labs correct and saved every one of them, and there does not seem to be solutions for all the former designs we made to use instead, and I cannot load mine, so I have no way of completing this "put it all together LC3 lab" unless I have devices to do that with. Thank you!

The solutions should always be there in the right panel of available modules.

Your former designs are tied to your browser and computer, so you have to reuse the same machine and browser and OS. Is this the case?

Yes, I am using the same computer and browser (SUSE Linux and Mozilla FireFox browser).
