Help

We encourage you to form study groups as a way to share your experiences, ask questions and learn together.

EdX currently has 89 Meet Up Groups around the world. If you can't find one near you form a new one.

Your local library is a great place to meet and find people to study with.

You can also use the #SmartphoneMOOC to look for people around you.

Follow posts that are of interest to you as a way to meet and develop relationships with others in the course.

EdX offers interactive online classes and MOOCs from the world's best universities. Online courses from MITx, HarvardX, BerkeleyX, UTx and many other universities. Topics include biology, business, chemistry, computer science, economics, finance, electronics, engineering, food and nutrition, history, humanities, law, literature, math, medicine, music, philosophy, physics, science, statistics and more. EdX is a non-profit online initiative created by founding partners Harvard and MIT.
