How to Use Jade

Help

In this module, we will cover the format of the instructions used by our stored program computer, the LC-3. We will then discuss how the LC-3 interprets, and is driven by the content of, the instructions. Lastly, we will discuss how to change the flow of instructions.

At the end of this module, you will be able to:

- Describe the parts of an LC-3 instruction.

- Describe what operations the LC-3 will perform, given a particular instruction.

- Understand how the flow of instructions can be changed by other instructions.

INTRODUCING INSTRUCTIONS WITH THE LC-3
